

Become a **Sponsor** of the
American Geographical Society's 2017 Fall Symposium

“Geography 2050: The Future of Mobility”

**Thursday and Friday, 16 and 17 November 2017
Columbia University, New York City**

Geography 2050 is a multi-year strategic dialog about the vital trends that will reshape the geography of our nation and our planet by 2050. In 2017, our Geography 2050 Symposium will focus on the Future of Mobility. We will examine how mobility innovations will reshape our world's geography, how these innovations change our basic perception of space and time, and how the geospatial revolution will help drive this revolution in mobility. By exploring these vital future trends, the American Geographical Society seeks to help thought leaders, and decision makers, from industry, government, academe, and the social sector to “get ahead of the curve” so that they can help shape the future of mobility in order to make the world a better place.

Contribution to become a SPONSOR is \$10,000.00
Sponsors will receive:

- 1 invitation to Chairman's Dinner (Thursday, 16 November 2017)
- primary recognition in all marketing materials (digital announcements, directional posters, printed materials, etc.)
- specific recognition in Conclusion Remarks
- logo placement and link to corporate homepage on Geography 2050 website
- logo placement and link to corporate homepage on Geography 2050 section of AGS website
- logo and name placement inside of program
- 2 complimentary Symposium registrations
